

CONSULTING SERVICES

Manage Risk.
Improve Operations.

Our consultants have an average of **20 years** of real business experience to address the robust needs of any organization or project. Whether your organization is small, medium or large, The ISO 9001 Group has the experience and resources you can trust.

We offer the following services to support your management system:

Management System Design — The ISO 9001 Group understands how to design and develop certification or accreditation ready management systems from the ground up. We guarantee your management system will get certified or accredited at a reasonable cost by API, ANAB, UKAS, A2LA or ACLASS accredited certifying bodies.

Management System Maintenance — You've invested a lot of time and money to implement your system, but maintaining your system is just as important. Our Management System Maintenance service provides your organizations with a dedicated, trained, and experienced professional to help protect your investment.

Business Process Management — Business processes may be different for large organization than for small or mid-size organizations, but they are needed for all sizes. The ISO 9001 Group helps organizations uncover their greatest opportunities for improvement and unleashes the power of processes within their business processes.

Standard Operating Procedures — Well-written and engaging procedures, defining how each task should be performed, are essential for ensuring compliance within your organization. They are also critical in providing employees with guidelines as they perform their daily jobs. We can help your company get more organized and streamlined.

Root Cause and Corrective Actions — Performing root cause analysis is critical to address root causes of nonconformities and implement corrective actions within your management system and addressing the correct problems. Our experienced management system consultants are trained in the science and art of root cause analysis.

Lean Management System — The ISO 9001 Group's lean management system approach is proven to be the most efficient and effective method for achieving the goal of your management system. Many organizations make common mis-

"The process was fully customized and tailor-made for our company, which allowed Endofa to successfully complete our Audit with NO nonconformities. We have relied on the ISO 9001 Group for the initial Consultation, Internal Audits, and Trainings for employees and will continue to use this great company for all future requirements. I would recommend The ISO 9001 Group for any company, small or large, because Oscar is a very qualified expert who takes the time to provide support and coach how ISO works with their company."

**-Geovanni Martinez, Global Finance
and QMS Manager, Endofa**
