# SUPPLIER AUDITING & EVALUATIONS

## Benefits of Supplier Audits & Evaluations

The ISO 9001 Group performs audits on your critical suppliers to ensure that they are operating per your requirements. As your organization utilizes services and products from suppliers to fulfill contracts, this service can prove to be very valuable.

Our ISO 9001 Certified Lead Auditors will work with your company to develop a planned and strategic supplier audit program. We can utilize your criteria or develop criteria based upon the required Management System Standards.

Our services will add the following value to your supplier auditing process:

- ⇒ **Gain benefits of professional and experienced Certified Lead auditors**
- ⇒ **Reduce auditing training and logistical costs**
- ⇒ **Allow employees to focus on their core jobs**
- ⇒ **Proactively reduce risks in your supply chain**

Benefits to be gained from auditing suppliers:

- ⇒ **Meet requirements of management system standards**
- ⇒ **Confidence of supplier products and services**
- ⇒ **Identification of opportunities for improvement**
- ⇒ **Reduced downtime due to poor supplier products and services**
- ⇒ **Improved customer satisfaction**

The ISO 9001 Group allows your organization to make informed decisions on the capabilities of your organization's suppliers.

*"We knew we didn't have the manpower and time to get it done so we researched and found The ISO 9001 Group. After a short interview we decided that we would hire them to assist us in this venture. It was mostly the experience of our consultant and The ISO 9001 Group's history of success that ultimately the decision was based on."*
