

## Complimentary Business Assessment

Schedule your complimentary assessment today to take advantage of this value-added opportunity

At The ISO 9001 Group, our mission is to help organizations improve their operations and reduce risk. As a value-added service we offer organizations a complimentary 10-minute (estimated) business assessment with a report. Our 6 point business assessment provides valuable insight into your business challenges and pain points, which could be preventing your organization from reaching its full potential.

### BUSINESS AREAS INCLUDED IN THE ASSESSMENT

1. **Sales** – Revenue generation.
2. **Finance** – Profitability and cash flow management.
3. **Operations** – Daily operations management.
4. **Human Resources** – Workforce management, training and development.
5. **Management Systems** – Business management support systems.
6. **Information Technology** – IT infrastructure and security.

### OUR PROVEN PROCESS

1. Our Consultant will ask assessment questions.
2. Your answers will be noted and scored.
3. Our Consultant will schedule a follow up to review results.
4. Your complimentary, value-added report with recommendations will be emailed.

### CLIENT TESTIMONIAL

“The ISO 9001 Group consultant took my call and listened to our needs. A few days later, we received a proposal to help us. Our consultant was always accessible for us and answered our questions right away. The investment we made has definitely paid for itself and beyond. I have referred several of my colleagues to The ISO 9001 Group and I would recommend them to any company that needs a consultant firm that they can trust, rely on and come at a reasonable price.”

*Harry Hans, President  
SONA Networks*
