

# DNV Hospital Accreditation

We have a 100% Certification Rate

DNV is the only hospital accrediting body for hospitals in the United States that combines Medicare Conditions of Participation with ISO 9001 quality management systems into their hospital accreditation program. Establishing a QMS for your hospital is a requirement of DNV Healthcare Accreditation and is the best way to demonstrate your hospital or medical center's ability to consistently provide medical services to your patients and meet statutory and regulatory requirements, such as Medicare and Medicaid. ISO 9001 is for all hospitals or medical centers, regardless of type, size, or medical services provided. Many federal agencies and programs such as, Department of Health and Human Services and Medicare require participants to be accredited.

## BENEFITS OF ISO 9001 CERTIFICATION

- ✓ Meet DNV Healthcare Accreditation Requirement for ISO 9001
- ✓ Improve hospital operations, efficiency and reduction in risks
- ✓ Do things right the first time
- ✓ Become an Accredited Hospital

## CLIENT TESTIMONIAL

"In order to cement ourselves as industry leaders, we needed to create a quality management system that would guide us through continuous improvement. We contacted several consulting companies to discuss our options and ultimately chose The ISO 9001 Group to assist us with our ISO 9001 quality management system. Our consultant listened carefully to our needs. We are proud to say the results have been very positive. The ISO 9001 Group continues to assist with minor questions in a prompt and courteous fashion."

*Mike Collins, Quality Manager
