

Supplier Evaluations

Contact us to reduce risk and strengthen your supply chain

Our supplier evaluation service will help your organization ensure you have the capability to meet your requirements. Proactively evaluating suppliers can prevent entering into supplier relationships that may have a negative impact due to poor supplier performance. Our experienced consultants will work with your company to develop a supplier evaluation program. We can utilize your criteria or develop criteria based upon management system standards, such as ISO 9001, ISO 14001, ISO 45001, API Spec Q1/Q2 and many more.

VALUE OF SUPPLIER EVALUATIONS

1. Verify suppliers can meet requirements
2. Verify suppliers' processes and capabilities
3. Prevent negative impacts associated with poor supplier performance
4. Mitigate business risk prior to utilizing a supplier
5. Establish beneficial supplier relationships

OUR PROVEN PROCESS

1. Review potential suppliers to be evaluated
2. Develop evaluation criteria
3. Establish supplier evaluation schedule
4. Perform evaluations
5. Issue evaluation reports

CLIENT TESTIMONIAL

"We knew we didn't have the manpower and time to get this done so we re-searched and found The ISO 9001 Group. After a short interview, we decided that we would hire them to assist us in this venture. It was mostly the experience of our consultant and The ISO 9001 Group's history of success that ultimately the decision was based on. We will definitely be retaining The ISO 9001 Group's services again in the future, as should anyone looking to move their company to the next level of excellence."
