## CLIENT TESTIMONIAL

"When we began working with The ISO 9001 Group, we did not have a quality management system in place, nor did we have the culture to achieve such an important goal. With our consultant's support, we started to develop a system which is now aligned with our vision as well as our customer's needs. The ISO 9001 Group provided us a very specific action plan describing each stage needed for the implementation process. I would definitely do business with The ISO 9001 Group again, and would recommend them to other companies without hesitation."
